

## MEMBERSHIP APPLICATION

The North American Crossbow Federation exists to advocate for the crossbow as a legal hunting tool for any licensed hunter during all seasons in which archery equipment is permitted. We are dedicated to promoting safe and ethical hunting, supporting sound game management practices, and cooperating with wildlife agencies and officials to recruit, retain, and educate participants in all aspects of crossbow shooting and hunting. We support the unification of all hunting rights advocates in the fight to preserve our hunting heritage, and we seek to partner with like-minded organizations and manufacturers in the effort to grow hunting as a beneficial form of outdoor recreation.
